The switch at the end of double track near 18th St., when not being handled by a switch tender between the hours of 7.30 P. M. and 7.30 A. M. will be left set to make the out-going the continuous track and west-bound trains arriving between these hours, or in the absence of the switch tender will handle this switch. Referring to Rule 710 concerning distant signals on page 79 in book of Rules and Regulations. Distant signals are also used for indicating position of obscure switches. When a distant switch signal stands at "CAUTION," it indicates that switch in advance of it is open and that trains must be brought to a stop before reaching the open switch. When it stands at "SAFETY," it indicates that switch in advance of it is closed and that trains may proceed.

6. Switches at Baden and San Bruno must be left turned for the old main line.

c. Trains running via South San Francisco, which, on account of work at South San Francisco, or for any other cause, fail to reach the junction beyond South San Francisco in time to meet or be passed at the junction by the next train scheduled to pass that junction in either direction, and thus know positively whether such train has passed, cannot proceed from South San Francisco till notified by the dispatcher that all trains due to have passed the junction have done so.

d. Extras running via *either line,* which should meet as per time card an opposing train between Baden and San Bruno running via the other line, will wait at the first junction point until the opposing train arrives.

The switch at the junction of the standard and narrow gauge lines near New Almaden must be left set for the narrow gauge line. On joint track between this junction and New Almaden station narrow gauge trains will have equal rights with standard gauge trains, and all must move under full control.

7. Trains must not exceed a speed of fifteen (15) miles per hour, equivalent to a minimum time of nine minutes thirty-six seconds, between Third St. Depot, San Francisco, and Valencia St.; nor a speed of thirty (30) miles per hour, equivalent to a minimum time of seven minutes twelve seconds, between Valencia St. and Ocean View in either direction. Trains must not exceed a speed of ten (10) miles per hour through Redwood and Gilroy, eight (8) miles per hour through San Jose and Salinas, and six (6) miles per hour through Hollister. Trains descending grades between Santa Margarita and San Luis Obispo must, at all times, be kept fully under control, and must not exceed a speed of eighteen (18) and thirty-two (32) miles per hour respectively for freight and passenger trains, and must be kept not less than fifteen (15) minutes apart. Conductors will see personally that Rule 73 of the Westinghouse Automatic Air Brake Instructions is strictly complied with while descending these grades and those between Baden and San Francisco.

Trains must not be run from the instant of their departure from any station to the instant of their arrival at the next station in less time than given in the column headed "*Minimum running time between Stations.*"
